MEMORANDUM FOR RECORD

STATINTL

Relative to the attached employee's suggestion submitted  
by [REDACTED] English Monitor, CAP-7, the Deputy Chief orally  
STATINTL gave [REDACTED] the following information on Friday, July 11, 1947:

A supply of bakelite (purchase type A) head sets has been requisitioned. It was reported about July 1 that this head site is temporarily out of stock, but it would be obtainable within 30 days. If the delay should be extended some other model can be given a try.

The permanent assignment of an individual booth to each monitor on a shift, as planned in our new quarters at Briggs School, will limit the number of monitors using a single head shift to one per shift.
